Why Use KUETx?

KUETx is not a generic student tool — every feature is designed around KUET's actual exam system, academic rules, and campus life.

Without KUETx	With KUETx
Manual attendance counting	Auto-tracked per course, per day, with shortage alerts
Guessing your CGPA	Live CGPA calculated from every mark you enter
Forgetting assignment deadlines	Unified assignment tracker with status & deadlines
Spreadsheets for marks	Per-course marks entry with grade prediction
Not knowing KUET's academic rules	App warns you when you're about to violate them
Losing past exam papers	Question bank — all KUET past papers in one place

Getting Started — New User Guide

1

Open the App

Go to kuetx.vercel.app — works on mobile and desktop. No signup, no account.

2

Install as PWA

Android: Chrome menu Add to Home Screen. iPhone: Safari Share Add to Home Screen.
Desktop: Click in address bar Install.

3

Set Up Your Profile

Fill in your name, student ID, department, year/term, and whether you are a CR.

4

Understand the Layout

Mobile: bottom navigation bar + More drawer. Desktop/Tablet: collapsible left sidebar.

After install, the app works fully offline. You only need internet the first time.

Profile Setup Fields

Field	Description
Name	Your full name — shown throughout the app
Student ID	Your KUET student ID number
Department	Select from all 16 KUET departments
Year & Term	e.g., 2nd Year, 1st Term — loads your curriculum
CR Mode	Tick if you are a Class Representative — unlocks CR tools
Enrolled Year	e.g., 2022 — used in batch calculations

Academic Core

Dashboard

[/ \(Home\)](#)

Your home screen. Shows a live summary of your entire academic status at a glance.

What You'll See

- CGPA card — your live calculated CGPA (provisional or published)
- Attendance status — average attendance across all active courses
- Marks overview — current term draft GPA based on marks entered
- Upcoming assignments — next 3 deadlines
- Expense summary — current month spending
- Smart Score ring — composite personal score (academics + attendance + prayers + more)
- Alerts strip — critical warnings: low attendance, academic rule violations, etc.
- CGPA trend chart — term-by-term GPA history as an area graph

How to Use

1. Just open the app — Dashboard loads automatically.
2. Tap any stat card to go directly to that section.
3. The chart updates as you enter results each term.

Courses

[/courses](#)

Your course list — the foundation everything else builds on. All courses for your department and year/term are auto-loaded from the KUET curriculum.

What You'll See

- All courses auto-loaded for your department and year/term
- Course code, name, credits, type (Theory / Lab / Project)
- Status per course: Active, Completed, Backlog, Withdrawal, Incomplete

What You Can Do

- Change a course's status (e.g., mark as Backlog if you failed)
- Add custom courses — anything not in the standard curriculum
- Add notes to any course
- Select optional courses if your department has electives
- See teacher assigned to each course (synced from Schedule)

How to Use

1. Open Courses — your term's courses are already listed.
2. Tap a course card to expand it.
3. Use the status dropdown to update (Active Completed, etc.).
4. Tap + Add Custom Course for anything not in the list.

Set course statuses correctly — Marks, Attendance, and CGPA all depend on this.

Attendance

[/attendance](#)

Per-course daily attendance tracker with shortage alerts and KUET rule enforcement.

What You'll See

- All active courses with current attendance percentage
- Color indicators: Green = Safe / Yellow = Warning / Red = Critical
- Projected attendance if you skip more classes
- Minimum classes needed to recover to 60% or 75%

What You Can Do

- Log attendance per course: Present / Absent / Late / Medical
- Navigate by day using the calendar
- Assign teachers to courses for schedule cross-reference
- See 'classes remaining' to hit 75% (scholarship threshold)

How to Use

1. Go to Attendance.
2. Select today's date (auto-selected).
3. For each course, tap Present / Absent / Late.
4. The percentage updates instantly.

KUET rule: You need at least 60% attendance to sit for exams.
At least 75% is required for scholarship eligibility

Marks

[/marks](#)

Marks entry and grade prediction for all active courses. All marks follow KUET's official formula: 40% continuous assessment + 60% hall exam.

What You'll See

- Each active course as a card
- Input fields for: Class Test (CT), Assignment, Attendance marks, Hall exam
- Live grade prediction as you type
- 'Marks needed' calculator — shows minimum hall exam marks for a target grade

What You Can Do

- Enter CT marks (up to 5 CTs — best 3 are counted)
- Enter assignment and attendance marks
- Enter hall exam marks once available
- Set a target grade and see exactly what hall marks you need
- Mark a course as having published results

How to Use

1. Open Marks.
2. Find your course card.
3. Enter marks in each field.
4. Grade updates live — green = target met, red = need more marks.

Results

[/results](#)

Term-wise GPA/CGPA tracker and your complete academic history. Calculates using KUET's official formula.

What You'll See

- Each past term with GPA, credits earned, total credits
- CGPA trend chart (area graph across all terms)
- Academic status: Normal / Probation / Dean's List / Honors eligible

What You Can Do

- Enter published results for each completed term
- App calculates CGPA automatically using KUET's formula
- See maximum achievable CGPA going forward
- Track Dean's List eligibility (GPA ≥ 3.75)

How to Use

1. After each term's result publishes, go to Results.
2. Tap the term (e.g., Y1T1) and enter your GPA or course grades.
3. CGPA updates across the entire app.

Schedule & Teachers

Schedule

[/schedule](#)

Your class routine — a visual weekly timetable (Sunday to Thursday) with full KUET time models.

What You'll See

- A weekly grid (Sun–Thu) with your classes plotted
- Each slot shows: course code, room, time, teacher

What You Can Do

- Add classes to time slots
- Choose from standard KUET time models (45-min, 1-hour, lab blocks)
- Assign teachers per slot
- Mark holidays
- Preview the schedule for a future date

How to Use

1. Open Schedule.
2. Tap + Add on any day.
3. Select course, time slot, room.
4. Add teacher name (optional).
5. Repeat for your full routine.

Your routine feeds into Attendance (today's classes are auto-suggested) and Dashboard.

Teachers

[/teachers](#)

Your personal teacher directory. Add and link teachers to courses and schedule.

What You Can Do

- Add teachers with name, designation, department, contact
- Edit or delete entries
- Search teachers
- Link teachers to courses (used in Schedule and Marks)

How to Use

1. Tap + Add Teacher.
2. Fill in name and any other info.
3. Teachers appear as suggestions when assigning to courses or schedule.

Syllabus & Diary

Syllabus

[/syllabus](#)

Your department's official syllabus — course by course, topic by topic. Auto-loaded from your profile.

What You'll See

- All courses for your dept, organized by year/term
- Each course: code, name, credits, weekly hours
- Chapter/topic list for each course
- Exam marks breakdown

How to Use

1. Open Syllabus — your dept loads automatically.
2. Browse by year/term.
3. Tap a course to expand its topic list.
4. Use it to plan study sessions alongside Self Study.

Diary

[/diary](#)

A daily academic log — what happened in class today, per course.

What You Can Do

- Write per-course diary entries for any day
- Add topics covered (synced from syllabus), homework given, notes
- View past entries by date
- Copy entries

How to Use

1. Open Diary — today's date is pre-selected.
2. Today's scheduled courses appear automatically.
3. Tap a course to add what was covered.
4. Navigate to past dates to review.

Assignments & Question Bank

Assignments

[/assignments](#)

Assignment tracker across all courses — deadlines, status, and course filters.

What You Can Do

- Add assignments with: course, title, due date, description
- Mark as Done or Pending
- Filter by course or status
- See overdue assignments highlighted

How to Use

1. Tap + Add.
2. Select course, write title, set due date.
3. When done, mark it as complete.
4. Dashboard shows upcoming deadlines from here.

Question Bank

[/question-bank](#)

KUET past exam papers — all departments, all years, organized and downloadable.

What You'll See

- Papers organized by Department Year Term
- Each paper shows year, exam type (Regular/Backlog/Special), availability
- Green tick = PDF available for download / Gray clock = not yet uploaded

What You Can Do

- Filter by department, year, term
- Search by dept name or year
- Toggle between grouped view and flat list
- Download available papers as PDF
- Contribute a paper you have (via Google Form)

How to Use

1. Open Question Bank — your dept is pre-selected from your profile.
2. Expand the term you need.
3. Tap Download on available papers.

Papers are added gradually. If you have a paper not listed, tap Contribute.

Self Development

Self Study

[/self-study](#)

Study session tracker — log how long you study per course and visualize your study balance.

What You Can Do

- Log study sessions with course, topic, duration
- See weekly study hours by course as a bar chart
- View cumulative hours per subject
- Filter by week or month

How to Use

1. Tap + Add Session.
2. Select course and topic (from syllabus).
3. Enter duration.
4. Chart updates to show your study balance.

Time Tracker

[/time](#)

A simple activity time logger for daily tasks beyond studying.

What You Can Do

- Log time spent on any activity (study, exercise, reading, etc.)
- See daily/weekly time breakdown

Namaz (Prayer Tracker)

[/namaz](#)

Daily Salah (prayer) tracker. Prayer consistency feeds into your Smart Score.

What You Can Do

- Mark each of the 5 daily prayers: Fajr, Dhuhr, Asr, Maghrib, Isha
- Set prayer times for reminders
- View 7-day consistency trend

How to Use

1. Open Namaz.
2. Tap each prayer to mark it as done.
3. Do this daily — the 7-day average shows on Smart Score.

Self Evaluation

/self-eval

A private daily moral and habit tracker. Rate yourself and log good deeds / mistakes.

What You Can Do

- Log good deeds done today (from presets or custom)
- Log bad habits / mistakes to avoid
- Rate yourself 1–5 for the day
- View 7-day trend

How to Use

1. Open Self Eval daily.
2. Tap preset chips or write custom entries.
3. Rate your day.
4. Self-rating feeds into Smart Score.

Smart Score

Smart Score is your composite personal score — academics + discipline + habits combined. It updates automatically as you use the app daily. Goal: keep all areas green.

Parameter	Weight	Visual
Academic (CGPA / Marks)	30%	30%
Attendance	20%	20%
Study Hours	12%	12%
Notes / Diary Activity	10%	10%
Assignments Done	10%	10%
Namaz (7-day average)	10%	10%
Self Rating (7-day avg)	8%	8%

Money & Alerts

Money

/money

Personal expense tracker designed for campus life at KUET.

What You Can Do

- Log expenses by category: Course Fee, Hall Fee, Meal/Food, Transport, Junior Treat, Tour, Personal, Stationery, Other
- See monthly bar chart of spending
- View total per category

How to Use

1. Tap + Add.
2. Enter amount, category, optional note.
3. Monthly chart updates instantly.

Alerts

/alerts

Your academic guardian — automatic rule-based warnings based on KUET's official academic regulations.

What You'll See

- Red CRITICAL — must act immediately (CGPA < 2.20, exam barring risk)
- Yellow WARNING — potential issues (low attendance, missing marks, too many courses)
- Green POSITIVE — good news (Dean's List eligible, Honors track, scholarship eligible)

What Alerts Check

Type	Rule
CRITICAL	Exam bar risk — Art. 11.3
WARNING	Scholarship loss — Art. 14.2
CRITICAL	Academic probation — Art. 20
POSITIVE	Honors eligible — Art. 18.1
WARNING	Art. 11.2 violation
WARNING	Max B+ for backlog — Art. 16
INFO	Data completeness check
INFO	Upcoming due dates

Tap any alert to jump to the relevant page and fix the issue immediately.

Notes, Clubs & CR

Notes

[/notes](#)

A free-form personal notepad. Create, edit, and delete titled short-form notes — class reminders, quick thoughts, to-dos.

Clubs

[/clubs](#)

Track your club and society memberships. Keep a record of extracurricular involvement.

What You Can Do

- Add clubs/societies with name, role, year joined
- Keep a record of your extracurricular involvement

Class Management (CR Tool)

[/class-management](#)

A dedicated workspace for Class Representatives. Only visible when CR mode is enabled in Profile.

What You Can Do

- Track class attendance at the class level
- Manage CT (Class Test) scheduling
- Copy/share class info
- Coordinate with the routine

How to Use

1. Enable CR mode in Profile.
2. Open Class Management.
3. Set up the class schedule (same interface as Schedule).
4. Mark attendance for each class session.

Only visible and relevant if CR mode is enabled in your Profile settings.

Extra Pages (More Drawer)

These pages appear under the More () drawer on mobile.

Page	What It Does
Term Q&S	Term Question & Suggestion tracker — note important Q&As per course for exam prep
Tuition	Track private tuition income and sessions if you tutor others
Food	Log daily meals and hall food
Projects	Track academic project progress: title, teammates, deadline, status
Tours	Record tour/trip history with your batch
Social	Log social activities, events, volunteering
Reports	Generate a printable academic report: attendance + marks + CGPA summary

Settings & Privacy

Settings

[/settings](#)

Data management and app preferences.

What You Can Do

- Theme — Light / Dark / System
- Export data — Download all your data as a .json file (backup)
- Import data — Restore from a previous backup
- Auto-backup — App keeps snapshots automatically
- Clear all data — Full reset (confirmation required)
- PWA info — Install status, offline capability info

How to Use

1. Regularly tap Export to save a backup .json to your phone/computer.
2. To restore: tap Import and select your backup file.

Your data lives only on your device. Clearing browser storage or changing devices loses data — backup regularly via Settings Export.

Data & Privacy

- All data is stored locally on your device (localStorage)
- Nothing is sent to any server — fully private
- No login required, no account needed
- Clearing browser data = losing your data — export regularly
- Use Settings Export to save a .json backup file

Quick Tips & Troubleshooting

?

First time?

Set Profile Add courses Set routine Start logging attendance

?

CGPA not updating?

Enter results in the Results page after each term publishes

?

Attendance wrong?

Check course status — only 'Active' courses count toward attendance

?

Missing a course?

Use 'Add Custom Course' in the Courses page

?

App running slow?

Install as PWA (Add to Home Screen) for best performance

?

Lost data after phone change?

Restore from exported .json file via Settings Import

KUETx — built by a KUETian, for KUETians.
kuetx.vercel.app
